Dear Customer,

Dreams Carports I, Inc. focuses on bringing you permanent structures that require an anchoring system to keep them standing strong and a minimum certifications of 105 MPH.

If a carport or other metal building is not anchored with the required amount of anchors to the ground or cement, the strength and stability of the carport/ building is at risk.

By signing below you are choosing to go against the recommendations of Dreams Carports and their Certified Engineer.

The undersigned understands without requested amount of certified anchors in place the company (Dreams Carports I, Inc.) will not assume nor accept any liability that relates to structural failure of building due to anchors not in place.

Upon signing, buyer understands and accepts any potential liability, and forfeits all rights to bring a suit against Dreams Carports I, Inc. For any reason regarding such.

Thank you,
