REGULAR STYLE GARAGE

CALL NOW TO ORDER!

This regular style garage from **Elephant Structures** is perfect for anyone looking for a metal building at a great price. The garage measures 18' wide x 21' long x 8' tall, offering 378 square feet of floor space. The building is manufactured with a strong 14 gauge galvanized steel frame and a regular style roof with 29 gauge panels. There is one garage door on the front of the building, with an entry door on the side for easy access. Customize this garage for whatever you need! Great for protecting vehicles and valuable equipment.

If you are looking for a regular style garage at a great price, trust the folks from Elephant Structures! We are one of the oldest and largest metal building suppliers in the nation! Upgraded commercial framing is available. Call today!

LAND/CEMENT FOUNDATION MUST BE LEVEL

CONCRETE PAD

LEVEL SITE

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
