### VERTICAL DOUBLE WIDE CARPORT

**CALL NOW TO ORDER!**

This vertical double wide carport from **Elephant Structures** is perfect for anyone looking for a premium quality metal building at a great price. The carport has dimensions of 20' wide x 26' long x 10' tall and is manufactured with a 14 gauge galvanized steel frame and 29 gauge roof panels. It has a strong vertical roof with gables at each end and 3' wide side panels for additional protection. This versatile structure is certified for high wind and snow loads and is guaranteed to meet your local building codes and regulations.

If you are looking for a double wide carport at a great price, contact the experts at **Elephant Structures**. We custom manufacture clear-span buildings up to 60' wide, at any length you need. Heavy duty commercial framing available. Give us a call today!

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
