STEEL BUILDING WITH LEAN TO'S

CALL NOW TO ORDER!

Keep your tools, equipment, supplies, or vehicles safe in this custom steel building. Built using only high-quality steel and designed to last for generations, this steel building features a secure enclosed garage area along with two attached lean-to structures.

Featuring more than 750 square feet of storage space and measuring 36' wide and 21' long with a height of 10', this steel building is an excellent building solution for your home or business. All of our structures can be designed and certified to withstand severe weather conditions specific to your area.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
