STEEL FOUR CAR BARN WITH ROLL-UP DOORS

CALL NOW TO ORDER!

An affordable way to store large amounts of vehicles and equipment. Doubles as an animal shelter, horse barn, and much more. Dimensions are 42' wide x 21' long x 12' high for a total of 882 square feet of storage space. Closed lean-tos on sides are 12' W, with 6' x 6' roll-up garage doors on the front wall. Center structure is 18' wide and can fit two cars side by side in between the lean-tos. Customize this barn in any way you need, including choosing your colors.

Manufactured with high-quality galvanized steel framing. Roof and wall panels are heavy-duty 29-gauge steel sheets. Reinforced with corner and center bracing on the steel frame. Constructed with premium vertical roof and side wall paneling for maximum durability. Your building is guaranteed to be free of leaks and other defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
