CUSTOM COMMERCIAL STEEL BARN

CALL NOW TO ORDER!

This Custom Commercial Barn is a premium building with several unique options. This barn offers 3,834 square feet of storage space for your vehicles and equipment. Center structure measures 30' W x 71' L, with 2,130 sq. ft. Lean-to's are 12' W with a combined 1,704 sq. ft. of extra room. Due to its size, barn is certified for wind and snow in your area. Certification also means your barn is guaranteed to meet or exceed your area's building requirements.

Manufactured with the highest quality materials available. Frame is premium American-made galvanized steel. Roof and wall panels are heavy-duty 29-gauge steel sheets. Reinforced with corner and center bracing on the steel frame. Certified building includes extra bracing on each leg and anchors for proper grounding. Roof and walls are built with our superior vertical panels for maximum durability.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
