### TWO CAR METAL WORKSHOP GARAGE

**CALL NOW TO ORDER!**

Manufactured with high-strength steel and designed to last for years to come, this custom metal workshop is a great building solution for any problem you may have. Keep all of your tools, equipment, and materials organized and protected inside of this secure metal workshop. It's also perfect for keeping your vehicles safe from the threat of severe weather. Three garage door openings and one walk-in door allow for easy accessibility to all of your property.

Measuring 18' wide by 21' long with a height of 8', this durable metal workshop provides nearly 400 square feet of protected space. All of our buildings can be designed and certified to withstand severe weather conditions specific to your region.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
